Elements of Web Site Evaluation

** Purpose **
Why did the author create this site?  
Who is the audience?  
Does the author have a particular point of view?

** Authority **
The persons or organizations behind the site must know what they're talking about. And they need to prove it to you.

** Design & Usability **
The design and features of the site should help, not distract, you from learning what you need to learn.

** Content **
The information on the site must be:  
1. what **you** need  
2. of the best quality  
3. up to date  
4. have good backup
