

HOW-TO:

Print your Notecards from *NoodleTools*

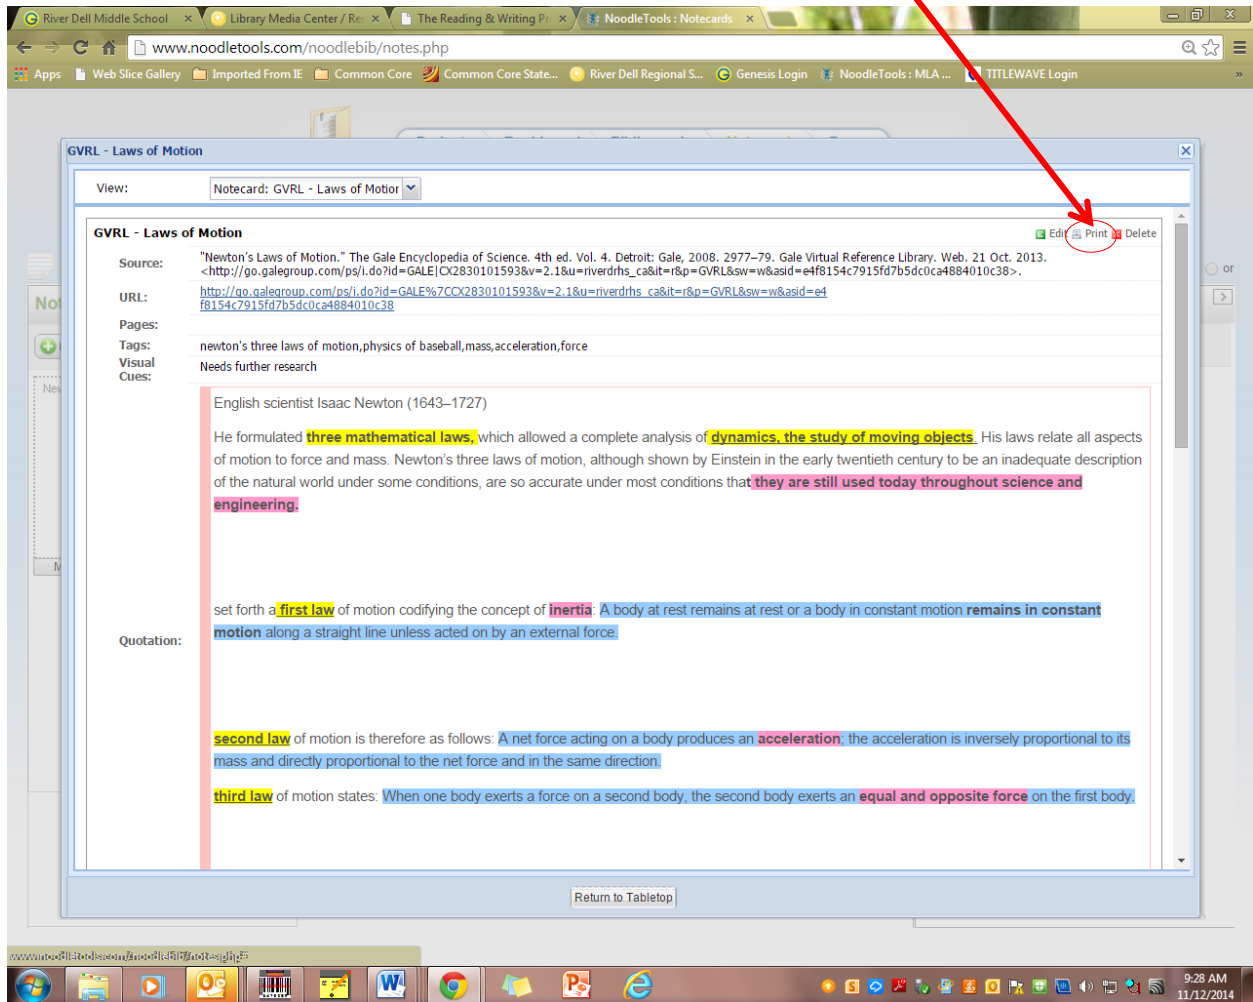

If you are asked to print out your NoodleTools Notecards, follow these simple directions:

1. Mouse over the card you want to print and select 'View Details,' like this:

The screenshot shows the NoodleTools Notecards interface. The browser address bar displays www.noodletools.com/noodlebib/notes.php. The navigation menu includes Projects, Dashboard, Bibliography, Notecards, and Paper. The main content area is titled "Notecards" and features a "Notecard Tabletop" section with buttons for "New Notecard", "Add to Pile", "Link to Source", and "Tags". A notecard titled "GVRL - Laws of Motion..." is highlighted, showing its content: "Newton's Laws of Motion." The notecard also includes tags, a quote about Isaac Newton, and a "View Details" link circled in red. A red arrow points from the text above to this link. On the right side, an "Outline" section lists a hierarchy of topics: I. Physics of Baseball, A. Laws of Motion govern mechanics of hitting, 1. Subtopic, B. Topic, C. Subtopic, II. 1st Law of Motion, A. Subtopic, 1. Subtopic, B. Subtopic, C. Subtopic, III. 2nd Law of Motion, IV. 3rd Law of Motion, V. Conclusion, VI. Topic.

2. When the card details open, click on the 'Print' button in the upper right:

3. A new window will open in your Internet browser. Give the keyboard command 'Ctrl-P' for 'print' and your notecard will print out.

4. Don't forget to put your name on your printout!
