 SUBJECT: **2019 Testing Report – Part 4**
 DATE: March 9, 2020

New Jersey statute and New Jersey Department of Education (NJDOE) regulation require all districts to report the performance of their students on state assessments on an annual basis. This requirement is measured through the QSAC (Quality Single Accountability Continuum) process. As you are aware, the NJDOE instituted the PARCC testing system during the 2014-15 school year. That system was migrated to the New Jersey Student Learning Assessment in the 2018-19 school year. The district also participates in a science assessment in grades 8 and 11.

This is the fourth report regarding the results. The information consists of the results for the Science assessment for grades 8 and 11. The NJDOE requires that all subgroups with a population of 10 or more be reported. As this is a practice test, I am reporting the aggregate data and comparisons to State-wide results.

Thank you
